

COVID-19 Traffic Light System

- For Productions Not Using Vaccination Passports

The below guidelines apply to productions that choose not to use a vaccination passport system.

Because it is unknown if cast and crew are vaccinated, much stricter controls are required to achieve the necessary risk minimisation.

To operate safely at all Traffic Light levels during the COVID-19 pandemic, all PCBUs, including contractors and sole traders, must comply with:

- settings for the current Traffic Light level (including public health measures), **and**
- public health requirements for their workplace (e.g. physical distancing), **and**
- all other health and safety obligations, **and**
- the Screen Sector Health and Safety Standard and Protocols, and **must**
- create and implement a COVID-19 safety plan identifying how a PCBU will 'operate safely' within the WorkSafe COVID-19 framework.

At all Traffic Light levels, PCBUs will need to follow all public health guidelines. These include the following, although guidelines and requirements may change over time:

- Making sure the production is implementing screen industry best practice protocols and has appropriate COVID-19 safety protocols and a designated COVID Officer in place.
- Regular disinfecting of surfaces.
- Encouraging good hand hygiene by allowing frequent hand washing and sanitising.
- Not having sick people in the workplace (use of the COVID-19 Health Declaration form is highly recommended).
- Meeting physical distancing requirements.
- Government recommendations and mandates in regards to use of face coverings.
- Keeping an eye on the mental health of cast, crew and suppliers (please make yourself familiar with support mechanisms available for anyone that might be struggling financially or mentally).

The aim of the screen industry specific guidance is to assist PCBUs to meet their workplace health and safety obligations while operating under the COVID-19 Traffic Light System. This information will be updated from time to time.

	RED	ORANGE	GREEN
NZ COVID-19 Level Outcome	At Red, action will be needed to be taken to protect both at-risk people and protect our health system from an unsustainable number of hospitalisations.	At Orange, there will be increasing community transmission that is putting pressure on our health system. The whole of the health system will focus its resources, but can continue to manage primary care, public health, and hospitals. There may also be an increasing risk for at-risk people.	Green is when there are some COVID-19 cases in the community, and sporadic imported cases. Community transmission will be limited and COVID-19 hospitalisations will be at a manageable level. The health system will be ready to respond, including primary care, public health, and hospitals.
	Production choosing not to use vaccination passports must adhere to 1m physical distancing. Close Proximity work is not permitted.	Production choosing not to use vaccination passports must adhere to 1m physical distancing. Close Proximity work is not permitted.	Production choosing not to use vaccination passports must adhere to 1m physical distancing.
Screen Industry Summary	<p>Work can be done on film and television sets, but with firm 1m physical distancing requirements and no Close Proximity work.</p> <p>Contactless interactions with the general public.</p> <p>Face coverings are strongly recommended. And it would be expected that most productions will require them as part of their H&S plan.</p> <p>Travel between regions is allowed.</p> <p>Use of the COVID-19 Health Declaration form is highly recommended for anyone entering a work site.</p> <p>Ability for all cast and crew to raise concerns of action, physical distancing or risks.</p>	<p>Work can be done on film and television sets, but with 1m physical distancing requirements and no Close Proximity work.</p> <p>Business continuity plans activated.</p> <p>Implementation of physical distancing measures within the workplace.</p> <p>Contact tracing measures in place.</p> <p>Travel between regions is allowed.</p> <p>Contactless interactions with the general public.</p> <p>Face coverings are strongly recommended. And it would be expected that most productions will require them as part of their H&S plan.</p> <p>Use of the COVID-19 Health Declaration form is highly recommended for anyone entering a work site.</p> <p>Ability for all cast and crew to raise concerns of action, physical distancing or risks.</p>	<p>Work can be done on film and television sets, but with 1m physical distancing requirements in place.</p> <p>Close Proximity work is permitted with PPE and hygiene measures in place.</p> <p>Cleaning protocols actioned.</p> <p>Production and site specific COVID-19 Safety Plan approved and implemented.</p> <p>Use of the COVID-19 Health Declaration form is highly recommended for anyone entering a work site.</p> <p>Face coverings are strongly recommended. And they are mandatory for close proximity work.</p> <p>Ability for all cast and crew to raise concerns of action, physical distancing or risks.</p>

	RED	ORANGE	GREEN
Expected productions	<p>Productions with no close proximity work.</p> <p>Productions must adhere to 1m physical distancing.</p> <p>Surveillance testing should be strongly considered.</p> <p>We recommend closed or controlled workplaces where there is no contact with the public.</p> <p>Low risk activities only. No high risk stunts, SPFXs or locations that could put additional pressure on hospitals.</p> <p>Crew members must work from home if they are able to.</p>	<p>Productions with no close proximity work.</p> <p>Productions must adhere to 1m physical distancing.</p> <p>Surveillance testing should be considered.</p> <p>Productions prepared to escalate to RED at any time. This may happen rapidly.</p> <p>Pre-production where crew have the ability to work in small workgroups and are able to maintain the minimum 1m physical distancing.</p> <p>Crew members should work from home if they are able.</p>	<p>Production choosing not to use vaccination passports must adhere to 1m physical distancing.</p> <p>Surveillance testing should be considered.</p>
Content	Close Proximity work is NOT permitted.	Close Proximity work is NOT permitted.	Close Proximity work is permitted, but steps must be taken to ensure a safe workplace. Cast & crew comfort levels and suggested controls (PPE, etc.) to be taken into consideration. Please refer to the Close Proximity Bubble section of the Protocols.

	RED	ORANGE	GREEN
Crew	<p>A minimum 1m physical distancing should be adhered to at all times.</p> <p>Only crew who are critical to production to be involved with the physical shoot.</p> <p>Crew to work from home where possible.</p> <p>Engaging crew may be difficult due to their personal situation. I.e. caring for someone at home, at risk population in their bubble at home or childcare.</p> <p>Use of extras is not recommended as it can be difficult to apply the required risk minimisation and control. In some instances it may be possible if strict control measures can be achieved.</p> <p>Crew to complete health declaration forms before coming to the worksite.</p>	<p>A minimum 1m physical distancing should be adhered to at all times.</p> <p>Crew to work from home where possible.</p> <p>Undertake health screening for crew prior to them starting work.</p> <p>Day players, casuals and extras need stringent screening. These crew could have potentially been to multiple other worksites and can lead to a large amount of close contacts, increasing the risk of transmission within the production. Additional risk minimisation protocols must be put in place.</p> <p>Identify at risk crew.</p> <p>Engaging crew may be difficult due to their personal situation. I.e. caring for someone at home or at risk population in their bubble at home or childcare.</p> <p>Crew to complete health declaration forms before coming to the worksite.</p>	<p>1m physical distancing should be adhered to at all times, unless performing a necessary and approved Close Proximity task.</p> <p>Structures in place for cast and crew to be able to raise concerns regarding COVID-19 in the workplace.</p> <p>Consideration must be given to crew members' personal situation. i.e. caring for someone at home, at risk population in their bubble at home.</p> <p>Crew to complete health declaration forms before coming to the worksite.</p>

	RED	ORANGE	GREEN
Close Proximity Environments <ul style="list-style-type: none"> • Make-up & Hair • Costume • Sound 	<p>Close Proximity work is NOT allowed.</p> <p>Suppliers providing public services that require close personal contact (e.g. hairdressers, manicurists, beauticians, domestic cleaners, personal trainers, gymnasiums) can operate provided they are using vaccination passports and have appropriate health measures in place.</p>	<p>Close Proximity work is NOT allowed.</p> <p>Suppliers providing public services that require close personal contact (e.g. hairdressers, manicurists, beauticians, domestic cleaners, personal trainers, gymnasiums) can operate provided they are using vaccination passports and have appropriate health measures in place.</p>	<p>Close Proximity work can be undertaken with appropriate and agreed PPE & hygiene measures in place.</p> <p>Crew to maintain the required physical distancing between each workstation. Consider movement of crew around workstations and maintaining a recommended 1 metre physical distancing.</p> <p>Design and assemble work bubbles to provide continuity within a team in case a crew member becomes unwell.</p> <p>Make sure adequate ventilation is in place and that time spent in Close Proximity is kept to a minimum.</p> <p>Face coverings are mandatory for Close Proximity work.</p> <p>Vigorous hygiene standards to be maintained.</p> <p>Contact tracing is a government requirement.</p> <p>Health screening questionnaire to take place prior to starting work.</p>
Equipment	<p>Limit equipment on set if it creates unnecessary restrictions to physical distancing requirements.</p> <p>Single use products can reduce infection, but must be discarded correctly or it may increase the risk of infection.</p> <p>All equipment to be cleaned in accordance with the Ministry of Health guidance after each use. This is particularly important with shared equipment.</p>	<p>Limit equipment on set if it creates unnecessary restrictions to physical distancing requirements.</p> <p>Single use products can reduce infection, but must be discarded correctly or it may increase the risk of infection.</p> <p>All equipment to be cleaned in accordance with the Ministry of Health guidance after each use. 	RED	ORANGE	GREEN
Locations	<p>We recommend closed and highly controlled workplaces only.</p> <p>Numbers on site must reflect physical distancing requirements and ventilation vs. number of people on site.</p> <p>Public venues are open, but with capacity limits based on 1m physical distancing.</p> <p>Low risk environments where there is no risk of breaking the recommended physical distancing with people from outside the shooting bubble.</p> <p>Studios: ideally a single production on site. If there are other productions or existing tenants sharing the complex, then protocols must be established to facilitate the recommended physical distancing.</p> <p>Worksite and team Bubbles must be kept separate.</p> <p>No challenging or distant locations that have complex or difficult access, i.e. marine or alpine locations.</p> <p>Councils permitting filming activities will require a COVID-19 Safety Plan. Some indoor public venues may have restrictions on numbers or may not be available for filming.</p> <p>All productions MUST register with ScreenSafe.</p> <p>Productions must be able to control access into and out of the worksite.</p> <p>Only crew who are in the shooting bubble to be allowed on to set.</p> <p>Consideration must be given regarding the concerns location owners may have about the risk of COVID-19. Restrictions on numbers, etc. may apply.</p> <p>Pre and post-filming deep clean or sanitation of locations will most likely be required.</p>	<p>Numbers on site must reflect physical distancing requirements and ventilation vs. number of people on site.</p> <p>Public venues are open, but with capacity limits based on 1m physical distancing.</p> <p>Production must have the ability to contact trace all persons entering a worksite.</p> <p>Studios are open.</p> <p>Councils permitting filming activities will require a COVID-19 Safety Plan.
